

MEETING CRAFT

Give every member real airtime

Habits of a well-run
peer group meeting

01

Timebox every segment

Give each segment a set length and hold to it. The last member to present deserves the same time as the first.

02

Open with a Warm-Up Question

One question, about a minute each.
Everyone speaks before the first
update, so nobody starts cold.

03

Keep a parking lot

When a topic deserves time but not right now, park it. Come back to it before you close so nothing gets lost.

BEFORE YOU CLOSE

End on commitments

- Every goal gets an answer
- Each member names a 24-Hour Action
- Parking-lot items have an owner
- The next meeting date is set

Run a peer group?

We're building PeerPath with a small group of testers.
